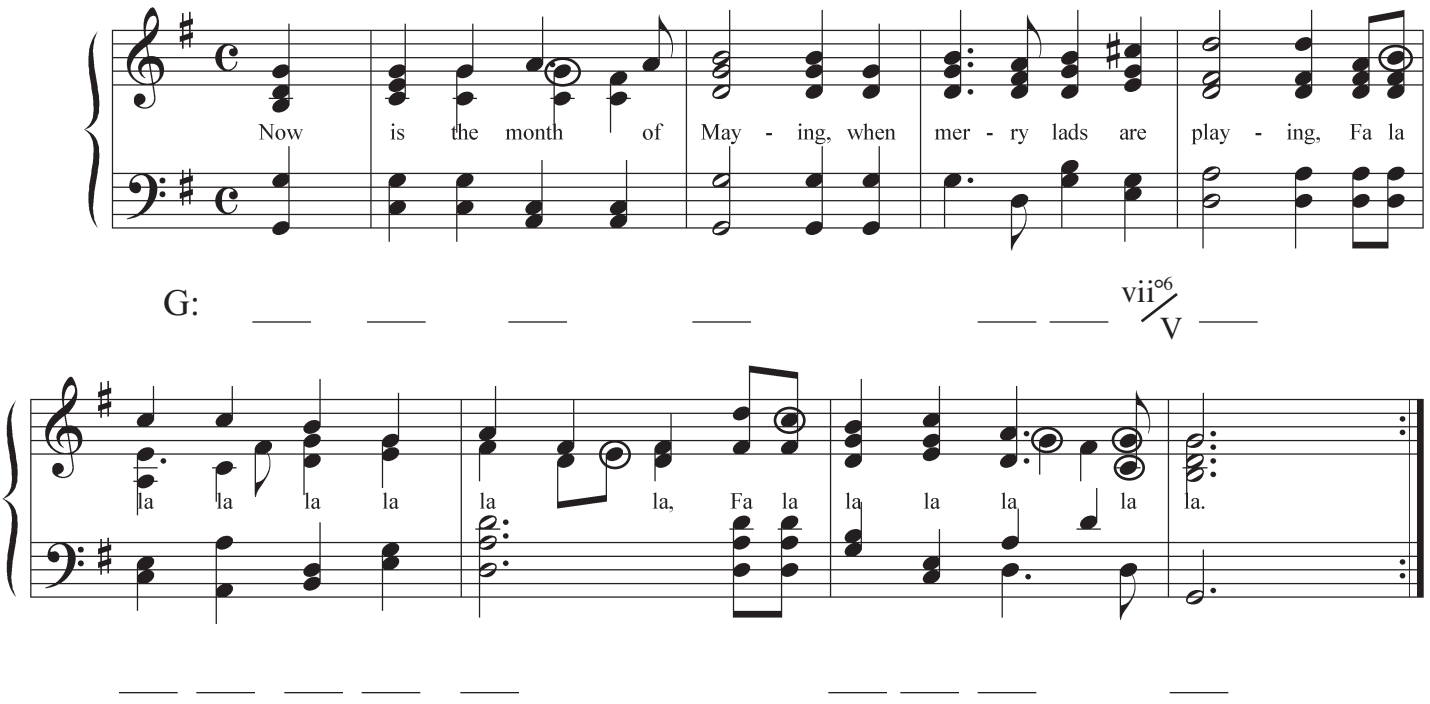
Worksheet #6

Thomas Morley, "Now is the Month of Maying"

This is the first eight measures of a longer *madrigal*, a form of Renaissance vocal music that was meant for entertainment rather than worship. Here I've combined five voice parts into a condensed score.

This will be a good opportunity to practice our roman numerals and inversion symbols. Remember:


- I've circled some "non-chord tones." Don't count them when you are figuring out the harmonies.
- I've also filled in one special chromatic chord for you.
