

A check-plus is worth one extra point on your final grade. Check is a half point, check-minus is no points.

### A. Let's make a bunch of triads

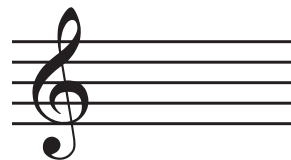

Since augmented triads aren't really relevant to our Quiz 3 chord progressions, we'll just focus on major, minor and diminished triads here. These were selected at random so it's a slightly more irritating collection than usual.

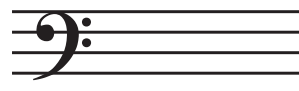

D $\flat$  minor

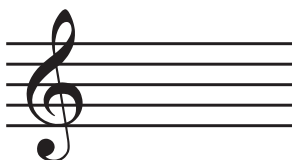

E diminished

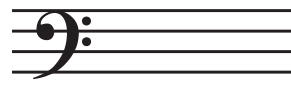

A $\flat$  minor

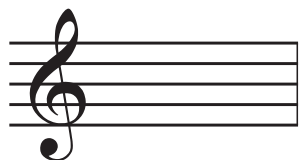

C diminished

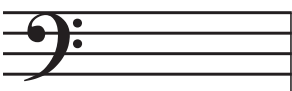

A minor

B major

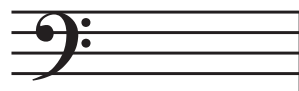

F major

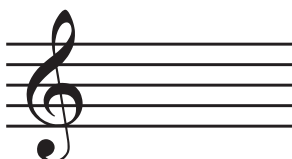

C $\sharp$  major

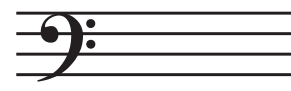

B $\flat$  diminished

E $\flat$  minor

D diminished

F $\sharp$  major

B. What kind of triads are these?

Below each triad, write major, minor, or diminished.
