

MUSC 320: Advanced Music Theory

Spring 2025

Professor David Smey
dsmey01@manhattan.edu

Hayden Hall, room 105
Tuesdays and Fridays, 2:00 - 3:15

Welcome to Advanced Theory. In this class we'll pick up where we left off in MUSC 220, learning the basics of how music is constructed. By the time we are finished you will hopefully have a good technical foundation that can help you understand a wide variety of musical genres.

In the broadest sense we'll cover five different topic areas in the following sequence:

- I. Chromatic harmony
- II. Modulation
- III. Rock harmony
- IV. Modernist scales and chords
- V. "Atonal" music theory

Required Materials

Students should try to bring a pencil with eraser to each class. Having your own supply of scrap paper and music paper is highly recommended. Also, please bring our textbook binder to each class, since I will frequently hand out new chapters as I work on a fresh draft.

Textbook

We will use my own free materials for class. I'll give you our textbook in a hard binder at the beginning of the semester.

Class Website

We will have a class blog on davesmey.com, where we will archive all of our documents, keep track of class activities, and keep up-to-the-minute grade information. All students should visit the site within the first week of classes and register a personal account.

Grade

Your overall grade in the class will be calculated with the following structure:

Homework 45%

Two theory quizzes, 15% each (= 30%)

Final Paper 25%

Homework

This semester our homework schedule will be much tighter than before. We will have to submit homework on the actual due date, and sometimes I will give out an assignment that is due on the next class. In order to give you some flexibility I will let you drop three assignments with no grade penalty.

Homework is still graded on a “check plus” (= excellent, worth 100 points), “check” (= pretty good, 92 points) and “check minus” (60 points) system. The criteria for what constitutes a check plus varies from assignment to assignment and depends somewhat on how your work compares to that of your classmates.

Attendance + Participation

As with music 220, an attendance-and-participation modifier will be added to your overall grade. This can give you a modest bonus or cost you a significant penalty. We’ll use the following table to calculate your score:

0-2 absences: 3 point bonus

3 absences: 1.5 point bonus

4-5: no bonus, no penalty

6+ absences: 3-point penalty for each absence over 5

Note that this is an “everything counts” policy that does not distinguish between excused and unexcused absences – all of the typical causes of absence (like illness, work conflicts, and extracurricular activities) count toward your attendance total. My hope is that all students can meet our attendance goals, regardless of what happens. However, if something truly extreme or traumatic does occur I will try to work with you to help you complete the class without a penalty.

In general this also is a fairly “liberal” attendance policy, since one can still pass with a large number of absences. I strongly recommend that all students strive for that 3 point bonus, since being present for most of your classes is simply the best approach to college, and good attendance usually correlates with better grades.

Being late to class may be counted as a quarter or half of an absence.

Failure to meet the expectations of positive in-class participation can also cause additional demerits to be added to your attendance tally. Rude, disruptive, or inattentive behavior can cause you to be marked absent for the class.

Finally, it is very important that you make it to our quizzes at their scheduled times. If something will prevent you from attending, you must contact me ASAP. I reserve the right to give you a zero if I don't think you have a legitimate reason for missing a test.

Masking in class

All students should feel free to wear a mask in class, for any reason. I would strongly encourage everyone to mask up and test if they have any cold, flu, or covid-like symptoms, and please stay home if you have a sore throat or fever.

Class Schedule

We'll meet every Tuesday and Friday from 2:00-3:15.

First class is Tuesday, January 14.

Tuesday January 21 follows a Monday schedule, so we will not meet.

There is no class during the week of March 17-21 due to **Spring Break**.

No class on Friday April 18 due to **Easter**.

Last class is Friday May 2.

No final exam. Final papers will be due on Tuesday May 6.
